ATLANTA

ATLANTA CONVENTION

Atlanta was established in 1837 at the intersection of two railroad lines, and the city rose from the ashes of the American Civil War to become a national center of commerce.

Although located in the South, Atlanta has a culture that is no longer strictly Southern. This is due to a large population of migrants from other parts of the U.S. who have made the metropolitan area their home, establishing Atlanta as the cultural and economic hub of an increasingly multicultural metropolitan area.
